

**FAMILY FUN** is the order of the day for Sailfish and Sunfish owners. Many find they can own two boats for less than the cost of a family vacation.

**RACING** quickly develops sailing skills and good sportsmanship. While you don't have to race your boat, "rounding the mark" is a thrill that's hard to match. Low cost, minimum upkeep and a one-design racing program make Sailfish and Sunfish your ideal choice for all-around fun.

**SAFETY** is built in. Foam flotation, bonded to the inside of each Fiberglass hull, makes them unsinkable. In the event of a capsize, righting is easy. For added safety, the wearing of approved lifesaving equipment is recommended.

**CAR-TOP** carrying, even on a compact car, presents no problem. Light in weight, both Sailfish and Sunfish are easily lifted, positioned and tied down by two people. Spars, sails and rigging are car-topped, too.

**TRAILER** transport is a breeze with Alcott's smooth-running, specially designed ALC-12 trailer. Ideal for two-boat families since hulls, spars, sails and rigging can be conveniently and easily "double-decked."

**STORING** requires only a small portion of a garage or basement wall. Dacron sails and aluminum mast and spars are virtually maintenance free.

**SMART SAILORS ARE SAFE SAILORS** — Your boat is not a toy. Even the most experienced sailors respect the water and protect themselves and their crews by using approved life jackets. Get to know your boat . . . its capabilities and its limitations. Most important, remember these two important rules: First, wear an approved life jacket. Second, always stay with your boat. It will not sink. See that you don't.

#### PRICE LIST

**SAILFISH** is the perfect fun boat for the young-at-heart. Light, lively, delightfully responsive, she is the choice of those who prefer completely casual, bathing suit sailing. Exciting performance, even in modest breezes, makes her a joy to handle while her light weight (under 100 lbs.) makes her amazingly easy to transport, to launch and to store. Rigging is simple, even for the beginner. The single sail is easily attached to light yet strong aluminum booms which require no involved standing rigging. Rudder is fitted to specially designed and patented Flip-Up Mount that greatly simplifies launching and beaching. A spring-tensioned daggerboard is easily raised or removed for maneuvering in shallow water. Deck of the Sailfish is clean, uncluttered, with non-skid finish in seating area and smooth mahogany handrails at sides. Mast, spars, sail and fittings are all of the highest quality materials. A wide choice of deck and sail colors is available. Factory-finished boats are of Fiberglass® with molded-in deck colors and foam flotation. Kit boats are made of marine plywood and Philippine mahogany.

**SUNFISH** brings sailing pleasure and enjoyment to beginner and expert alike. And at modest cost. With a foot more beam and a small cockpit, the Sunfish is more of a family boat than her sister Sailfish. Yet her performance is every bit as thrilling and she offers many of the same advantages... easy-to-carry on car top, by trailer or in the back of a station wagon; simple to rig and launch with Flip-Up Rudder Mount; easy to store. Sail area of 75 square feet keeps Sunfish moving smartly yet is easily controlled, even by beginners. Unsinkable, she features Alcott's famous swamp-proof pontoon-type hull with foam flotation. Like Sailfish, all equipment is of highest quality, designed for minimum upkeep. Mast and spars are of high-strength, anodized aluminum alloy. Sail is of specially woven fast-drying Dacron®. Rudder and daggerboard are of Philippine mahogany, finished bright. Fittings and rigging are of long-lasting marine quality. A wide choice of bright deck and sail colors is available to suit individual tastes. Factory-finished Sunfish are made of Fiberglass®; kits are marine plywood and fine Philippine mahogany.
